## Free Digital version of your Order of Service

When you place an order for an Order of Service with us, we can also provide you with a FREE digital 'flipbook' version so you can send it to those who are unable to attend the service, or those who may instead be joining or participating in the funeral service via an online link at the crematorium, church or cemetery. This service means those who cannot attend, can still benefit from seeing and enjoying the order of service when paying their final respects, and recalling fond memories of their friend or family member who has passed away.

If you do not require any printed copies we can still provide this digital version, although our charges for this service, will be the same as the minimum order of 20 copies, as outlined above.

Designs can be personalised at no additional cost.

Delivery on a next-day service is included in the cost. An additional charge may apply for other delivery options.

We offer a 30% discount on the standard price for reprints (without alterations), which can be ordered up to two years after the original service.

VAT is not applicable on Orders of Service. Where VAT is applicable on other products it has been included in the costs shown above.
