# The HL Perfitt promise

## Exceptional workmanship as standard

As a company with traditional values we're proud of our heritage and our reputation for exceptional craftsmanship. Our experienced team remains committed to creating kitchen work surfaces of the highest quality – nothing short of perfection will do.

## Only the best materials

We import only the finest materials from quarries across the world. Our customers deserve the best and we are pleased to be able to offer a vast range of granite, marble, quartz, limestone and slates from some of the world's most respected suppliers.

## Immaculate hand finishing

Each worktop we install benefits from the precision of modern state-of-the-art technology, combined with the care and attention of our dedicated stonemasons. Every piece is hand finished and inspected to make sure it is completed to the highest standards of our craft.

## Unrivalled service

From the moment you choose H.L Perfitt, through to the installation of your work surfaces, customer service is at the core of everything we do. We believe it is a mark of the outstanding service we offer and why so much of our business is the result of personal recommendations from happy customers.

## Professional, timely installations

We have invested in the latest software and machinery to ensure that by the time we are ready to deliver your surfaces they are absolutely perfect. Your finished worktops will be in your home and efficiently installed by a team of professionals.

## Beautiful bespoke work surfaces at the heart of your home

When putting together your dream kitchen your work surfaces will be one of the most visible pieces of the puzzle.

HL Perfitt has been entrusted with creating beautiful, bespoke surfaces crafted from stunning stone for many years, and we remain dedicated to providing an unrivalled service to today's discerning customers.

As well as the latest digital imaging software and computerised machinery, we are extremely proud to have our own team of dedicated, highly skilled craftsmen – allowing us to seamlessly blend modern techniques with the ancient art of stonemasonry.

This brochure features some of our most popular materials, edging styles and finishing touches. If you have something particular in mind that isn't included, please get in touch. We're always on hand to help you realise your vision.

# Step 1 Choose your stone and finish

At HL Perfitt we have an excellent reputation for selecting and holding stock of the finest natural materials from quarries around the world, and work with the most prestigious stone manufacturers.

This easy to follow, quick reference stone guide takes you through some of the pros and cons of different stone types to assist you in choosing the right type of stone for you and your dream worksurface.

## Considerations to help you choose your stone

MATERIAL COMPARISON	GRANITE	MARBLE	LIMESTONE	SLATE	SINTERED	QUARTZITE	QUARTZ
Scratch resistant	✓✓✓	✓✓	✓	✓	✓✓✓+	✓✓✓	✓✓✓
Stain resistant	✓✓✓	✓	✓	✓✓	✓✓✓+	✓✓✓	✓✓✓
Chip and crack resistant	✓✓	✓✓	✓✓	✓✓	✓✓	✓	✓✓✓
Heat and burn resistant	✓✓	✓✓	✓✓	✓✓	✓✓✓+	✓✓	✓✓
Shock resistant	✓✓	✓	✓✓	✓✓	✓✓✓+	✓✓✓	✓✓✓
Chemical and solvent resistant	✓✓✓	✓	✓	✓✓	✓✓✓+	✓✓✓	✓✓✓
Low maintenance	✓✓✓	✓	✓	✓	✓✓✓+	✓✓✓	✓✓✓
Colour consistency	✓✓	✓✓	✓✓✓	✓✓✓	✓✓✓+	✓✓✓	✓✓✓
Natural product	YES	YES	YES	YES	NO	YES	NO

### KEY

✓✓✓ = Exceptional   ✓✓ = Highly   ✓ = Less so

We believe that the subtle variations in colour and pattern give each slab of natural stone a personality all of its own, so we encourage a customer to view whenever possible. Our Diss workshop is home to the largest selection of stone in the East of England and we would be delighted to help you hand pick the exact piece to bring your kitchen to life. If you can't make it to us, don't worry, once you've chosen your ideal material one of our experts will work with you to find the perfect piece.

# Our most popular stone choices

The next few pages of our guide are based on recent orders and provide a small insight and selection of popular stone choices, if what you want isn't featured, don't worry – it doesn't mean we don't stock it and we can't provide it, we usually can. Fashion, trends, opinions and individual preferences change all the time, if you can't see what you want, just ask – we'll always do our best to help you achieve the look and exquisite finish you're after.

Once you have selected your stone our skilled craftsmen can begin creating your preferred finish. Whether you choose highly polished for a brilliant shine, buffed for a stylish low sheen, or leathered for a silk-like feel, you can be sure your worksurfaces will be entirely unique to your home.

Stone images used in this brochure are for illustrative purposes. They are a guide to the colour and characteristics of the materials but they may not fully represent the stone available. Natural stones are subject to variations in veining, pattern and colours.

**GRANITE** (opposite) – one of the hardest naturally occurring stones, granite is as beautiful as it is durable. The subtle variations in colour and vein are almost impossible to recreate in man-made substances and ensure that no two pieces are alike.

**AZUL PLATINO**

**STEEL GREY**

**UBATUBA**

**KASHMIR WHITE**

**ANGOLA BLACK**

**COLONIAL WHITE**

**KINAWA BIANCO**

**RIVER WHITE**

**BEST BLACK**

**BRAZILIAN GOLD**

**EMERALD PEARL**

**STAR GALAXY**

**COSMIC BLACK**

**AFRICAN FUSION/BELVEDERE**

The above stones are illustrated with a polished finish, although a honed finish is also available.

Those marked with **L** are also available in a leathered finish (an additional charge applies).

**MARBLE** – timeless and unmistakeable, marble has been adding a touch of glamour to homes across the world for centuries. Characterised by its dramatic veining, this distinctive natural stone can also be found in a host of colours, from the almost pure white of Carrara marble, to the dramatic black of the fine Nero Marquinho marble (available but not featured).

Like limestone, marble requires a slightly greater level of care than other naturally occurring materials but with the correct treatment will last for decades.

**CARRARA**

**ARABESCATO**

**CREMA MARFIL**

These stones are illustrated with a polished finish, and are also available with a honed finish, except Crema Marfil.

**LIMESTONE** – naturally lighter and less dense than some other natural stones, limestone is deceptively durable and maintains its appearance as it ages. This versatile material is available in an array of colours; from the almost white Portland stone, to the striking charcoal grey of Belgian Fossil and everything in between.

While this stone tends to be more porous than its counterparts, requiring a little more care and attention when used in a kitchen design, the striking impression it creates will more than compensate.

**PIETRA CARDOSA**

**BELGIAN BLUE FOSSIL**

**BATEIG BLUE**

These stones are shown with a honed finish.  
Belgian Blue Fossil is also available in Antique Sawn finish.

**SLATE** – slate is durable and has a high resistance to moisture. While you won't find the same degree of variation in slate as you might in other natural stones, there are a number of different shades and each unique piece will have its own subtle, but no less distinguishing, features.

**ITALIAN BLACK SLATE**

**SINTERED** – a sophisticated ultracompact sleek surface developed by world leading stone manufacturers e.g. Dekton® by Cosentino. Uses the innovative Sinterized Particle Technology at extremely high pressure and temperatures to accelerate the metamorphic change that natural stone undergoes. The high-tech process takes a blend of raw materials including glass and porcelain to produce worksurfaces of the highest quality durable quartz worksurface materials available. The Sintering technology used creates worktops that are thinner and stronger than ever before. The resulting product is 100% mineral, with no resin or binder. More importantly this process creates a material that is extraordinarily strong with almost zero porosity.

**TRILIUM**

**AURA 15**

**HALO**

**EDORA**

**SIROCCO**

**SIRIUS**

The above stones are illustrated with a honed finish, apart from Halo which is shown with a polished finish. Those marked with **T** have a textured finish.

**QUARTZITE** – is a very hard natural metamorphic rock that originated as a pure sandstone. Through a process of high heating and pressurization this sandstone is transformed into Quartzite, an extremely strong and durable natural stone. The heat process recrystallizes individual quartz pieces giving it a beautiful and decorative sparkling pattern.

**BIANCO ECLIPSIA**

**WHITE MACAUBAS**

These stones are illustrated with a polished finish, and Bianco Eclipsia is also available with a honed finish.

**QUARTZ** – manufactured using 90% natural quartz, these hard-wearing work surfaces have been engineered for resilience, meaning they are able to retain their lustre for a lifetime with only minimal maintenance. Our stunning range of quartz countertops offer the same luxurious feel and weight of entirely natural stone, while benefiting from the consistency of colour and pattern which cannot be achieved organically.

As with our granite option, a number of finishes are available for quartz surfaces so simply select your desired look and let our talented team do the rest. We're an authorised supplier and chosen fabricator for many leading brands of quartz: Silestone, Caesarstone, CRL, Cambria and many more.

**SNOW**

**GREY REFLECTION**

**CONCRETE**

**OSPREY**

**BLANCO CAPRI**

**CONCRETE GRIS HONED**

**MISTY CARRERA**

**BLACK STELLAR**

**ALPINA WHITE**

**BERWYN**

**BLANCO MAPLE**

**HARLECH**

**STELLAR BLANCO**

**SNOWY IBIZA**

**ICONIC WHITE**

**BLANCO ORION**

**LAGOON**

**LYRA**

These stones are illustrated with a polished finish, except Concrete Gris which is only available with a honed finish. Those marked with **S** are also available in a suede finish (additional charges and delivery lead times may apply).

This brochure features a small selection of popular stone choices that we source, if what you want isn't featured, just ask as we usually can provide it.

# Step 2 Choose your preferred depth and edging design

Once you've selected your stone we can begin tailoring it to your particular requirements and tastes. Choose from 20mm, 30mm or 40mm stone and choose an edge design for a flawless finish. Below are some of our popular choices, although we can work with you to create a bespoke edge design of your choosing.

## Standard choices

**SINGLE PENCIL ROUND**

**DOUBLE PENCIL ROUND**

**FLAT EDGE WITH ARRIS**

**HALF BULLNOSE**

## Technical choices

only suitable for stone depths of 30mm and above

**FULL BULLNOSE**

**OGEE**

**DUPONT**

**OGEE ROUND**

**WATERFALL**

**SHARK NOSE**

Can be used on stone depth of 20mm

**STEPPED**

Can be used on stone depth 20mm on 20mm  
Can also be applied to 30mm on 30mm

There are many more choices available for edge designs – if you don't see what you want here please ask to see more.

## Step 3 Make your work surface work for you

While we strive to make your kitchen work surfaces as aesthetically beautiful as possible, we also understand the importance of functionality at the heart of the home. Tailored to the individual customer's needs we are able to incorporate practical elements into your kitchen design.

Whether it is an exquisitely finished sink drainer or matching splashbacks and windowsills, our experienced craftsmen will create the work surface that works for you. Any finishing touches you desire can be added to the design to create your dream kitchen just as you want it.

## Step 4 Review and install

Having created a bespoke design it can be difficult to envisage exactly how your finished work surfaces will look, but thanks to the latest technology we are now able to help you do just that.

Using this modern software we can create fantastic imagery of your worktops featuring the piece of stone you select, and digitally incorporating all of your bespoke elements. In doing so, we can ensure your stone is perfectly positioned, taking into account its unique markings, before creating an accurate template from which your work surfaces can be crafted.

Once you are completely happy with your design, our team of trained fitters will install your flawless, hand-finished surfaces.

# Step 5 Aftercare

We pride ourselves on delivering exceptional service and that doesn't end at installation. Every granite worktop is coated with the most advanced stain resistant sealant that provides a 15 year warranty.

With a little bit of care your bespoke work surfaces can retain their lustre, functionality and durability for a lifetime and our experts are always on hand to offer advice and tips to ensure that is the case. Every customer receives a complete care kit to help them keep their new surfaces in pristine condition.

15 year sealing  
and stain warranty  
on all granite

# Don't take our word for it...

Worktops all went in great. Look amazing, the team did a great job so thank them all from us.

**FitzRoy Morgan, individual kitchens and joinery, Norton, Norwich**

Many thanks again for all your help with our worktop. We are absolutely thrilled with the finished result and wouldn't hesitate in recommending you.

**Leonie, Suffolk**

A huge thanks for sorting our gorgeous worktop. The team were very professional and charming. Those that made the template are a credit to your company, the customer service we received throughout has been first class.

**Helen and Mark, Beccles**

The sink cut-out is brilliant. Your team today as ever were excellent. I had never witnessed one of our 50mm island tops coming in and I have to say it was impressive. They all worked as a team smoothly, calmly and very professionally with no incident. Good work all and thanks again for all your help with this one.

**Plain English cupboardmakers, Stowupland**

We are thrilled with our granite worktops. From the initial meeting, right through to fitting, we encountered nothing but help, advice and professionalism.

**Brian and Jenny, Mendlesham**

Brilliant service, great fit, great staff.

**Mr Stratton, North Walsham**

We would like to thank you for the magnificent job you have done in supplying and fitting our new Silestone kitchen counter tops. From the templating stage to the actual installation your fitters were most diligent and professional. We are delighted with the finished result and will have no hesitation in recommending your services to anyone who is interested. Our thanks to Perfitts; long may you prosper.

**Derek and Christine Ashworth, Swaffham**
